

**HEALTHY BRAIN
RESEARCH NETWORK**

NATIONAL ASIAN PACIFIC
CENTER ON AGING

SEEKING PARTICIPANTS FOR THE UW MEMORY MESSAGING STUDY

Do you have a parent, step-parent, or parent-in-law age 65 or older?

The UW Healthy Brain Research Network (HBRN), with the National Asian and Pacific Center on Aging (NAPCA), is conducting research **focus groups** to evaluate public health messages connecting adult children with resources for their aging parents.

You may qualify to participate if you:

- Are over 18 years of age, and
- Are Chinese or Japanese, and
- Have a living parent, step-parent or parent-in-law age ≥ 65

For more information, call Lillian (708-890-8475) or Minhui (206-661-5079), or email our project (memoryuw@uw.edu)

Eligible individuals will be invited to participate in a 75-minute focus group in the Seattle area with 8 – 12 other individuals in August 2016.

Participants will receive a \$50 gift card for time and travel. Refreshments will be provided.

Please spread the word!

Information about the UW HBRN can be found at [http://http://depts.washington.edu/hprc/](http://depts.washington.edu/hprc/) and information about NAPCA can be found at napca.org
